The butcher shops now close on Sunday. Well, there's no use to beef about it.

The skating rink is affording much pleasure to large crowds. Patronize the boys.

College Endowment.

John D. Rockefeller has agreed to give \$25,000 to the endowment of Georgetown Baptist College, if the College will raise \$75,000 more within a year.

Prize Poultry.

The Louisville Poultry show was one of the biggest things of the kind ever seen, over 1,800 fowls being on exhibition. Our townsman, R. L. Elkin, captured a number of prizes with his great black Minorcas.

The Right Step.

The City Council has ordered an arch light placed at the depot, as suggested by The Record, and passengers can reach the station with some degree of safety. We have a splendid Council, and they work for the public good.

The Loyal Temperance Legion will hold a Pound Party in the Lecture room of the Christian church next Friday afternoon at 3:30 o'clock. All members, and children wishing to become members are invited to attend.

Another High Bridge.

The surveying of the proposed route between Lexington and Richmond for the electric railroad was finished last week, and work will begin in the early spring, provided the Fiscal Court extends the franchise. The bridge over the Kentucky river at Clay's Ferry, as planned will be 3.5 feet above the water, which will make it one of the highest bridges in the world.

Will Rank First.

Last year, Garrard ranked second as a hemp producing county. A local dealer who knows what he is talking about, told us yesterday that he believed Garrard would rank first this year, as the crop, as a rule, was first class all over the county, and much more was raised than last year. Garrard has the best soil in the state, but for that matter, she's the best county in the state.

Y. M. C. A.

There is a probability of the organization of a branch of the Young Men's Christian Association in this city at an early date. Substantial men are at the head of it, and we believe the undertaking will be carried to a successful end. Messrs. K. F. Postle, Ed. Gaines, J. E. Stormes and others are attending the state meeting in Lexington today, and will gather in all necessary information. This is a movement which should be encouraged by all good people.

You Get to Sleep.

If you go to Louisville, leave home 8:25 p. m., go to Stanford and stop at the St. Asaph hotel, where you will be given a nice room and clean bed. You can, by a special arrangement Messrs. Hardin & Farris have, be allowed to sleep until the Louisville train comes no matter how late it is. The other night, we got the benefit of nearly two hours additional sleep by this arrangement. That's what we call up-to-the-minute hotel management.

A Good Show.

Capt. W. H. Harris' troupe of star minstrels gave a splendid performance at the court house Monday evening. This show is given by local colored boys, each of whom would do credit to the professional. The singing and dancing was especially good. Capt. Harris is an all-round show man, and one of this office's best customers. He is an upright, honest colored man, who goes about his work in a manner that commands the respect of all, both white and colored.

Scarcity of Cars.

The local hemp buyers are having no end of trouble getting cars to ship in, and the outlook for relief is not promising. As the hemp is shipped East, it requires foreign cars, and the Eastern roads being almost blocked by immense shipments of freight, their cars seldom get this far west. Business on all the railroads is larger than ever known, and many of them are compelled to refuse to receive anything but perishable goods. Lancaster buyers are receiving hemp right along, however, but most of it has to be stored.

Condition of Wheat Satisfactory.

The weather bureau's monthly report on crop conditions follows—On the whole winter wheat crop fared well in January, 1903, the central and northern portions winter wheat belt being well protected by snow covering until the closing days of the month when much snow melted, leaving only the extreme northern districts with covering January 31. Over southern portion of the winter wheat belt some damage resulted from alternate freezing and thawing, but the crop apparently has not sustained serious injury. The rain fall throughout winter in the wheat belt was heavier than usual. Kansas is the only state which has reported needed moisture.

The Y. P. S. C. E., are preparing to give an entertainment in this city on Feb. 27. The best local talent will participate. Full particulars in next issue of the Record.

The Lady Maccabees will have a special meeting in their hall next Thursday evening, the 19th. As business of importance is to come up, all members are urged to be present.

New Committeeman.

At a meeting of the Democratic county committee, Henry Patterson was chosen to fill vacancy in East Park, caused by the removal of Joe Arnold to another precinct. "Pat" will make a good committeeman.

Our Friends Stand by Us.

Never in the history of this office has job work been so plentiful. Quite a number of new patrons have been added to our list of customers, among them several who thought (?) heretofore that they couldn't get what they wanted in Lancaster.

Form Social Club.

A number of the Younger Set have organized a social club which promises much pleasure to its members. It is known as the "B. T. V." The colors are violet and blue. Another meeting will be held next week and we hope to give names of the membership, etc.

It Happens Every Day.

A man who chewed twenty cents worth of tobacco a week concluded to try a tobacco cure. In two weeks he ate \$1.50 worth of the cure and for the next two weeks he used ten cents worth of Yucatan, five cents' worth of candy, five cents' worth of cough drops per day. During these two weeks he also consumed two large rubber erasers, ate the rubber tips from fourteen lead pencils, chewed up a dozen penholders and browsed off his mustache as high as he could reach. He is now chewing tobacco in the interests of economy.

Look out for Him.

A shrewd guy is working his graft in adjoining counties, and the ladies will do well to be on the lookout for him. By distributing gratis a new castle soap he obtains the good will of the farmer folk, and the day after the distribution returns with some Turkish bath towels and a note book, with the request that \$5 be deposited with him and on the morrow he will return with a box of 10 fine towels and a half dozen linen table cloths, all for the \$5. He gets the \$5 and the morrow never comes for him. He is off for new fields.

Rev. A. H. Moore Resigns.

It is with the deepest regret that we announce the resignation of the Rev. Allen R. Moore as pastor of the Lancaster Christian church. It was handed in Sunday morning. Mr. Moore has received a call to a church in Birmingham, Ala., and while the congregation is not as large as the one here, yet he feels that it is his duty to accept. This paper has frequently spoken of the good work he has been doing in this community, though we have not told of one-third the good he has accomplished. He is a true christian gentleman, a man of rare ability, who puts into his daily life that blessed gospel he preaches. Such men are needed in Lancaster. What we need is men who have religion which lasts all their lives, and is not hung up in the pocket of the Sunday Prince Albert coat there to hang until the following Sunday. He has done some noble work in Lancaster, and made friends who will never forget him. The resignation takes effect about the middle of next month.

Hopper.

Mrs. Martha Hopper, daughter of the late John Stodgell, died at her home in Charleston, W. Va., at 6:30 Friday morning. She was the widow of W. D. Hopper, a prominent lawyer of Lancaster, Ky., who died a number of years ago. The remains arrived in Danville Saturday evening on the eight o'clock train, and were taken to the residence of the Misses Stodgell. The burial took place Sunday afternoon at half-past two o'clock. Mrs. Hopper was well known by our older citizens. Her husband was one of the best lawyers at the local bar, and a very prominent Mason. Mrs. Hopper leaves five children: John S. Hopper, William D. Hopper, Miss Eleanor Hopper, Mrs. Martha Buckner, all of Charleston and Mrs. Anna B. May, of Seattle, Washington.

New Farm Paper.

Danville has another paper. However, it seeks general rather than local favor, and is known as the Kentucky Farmer. Messrs. McIntyre & Raiston, the present publishers of the Kentucky Advocate, are the owners of the new publication, which will be issued within two or three weeks. The paper began with a list of subscribers covering pretty thoroughly the Blue Grass Section, and the outlook for a successful career is quite flattering.

We can give you a splendid clubbing rate with the Kentucky Farmer, and if you want a splendid farm paper, call at The Record office and get rates.

Stanford Items.
Journalist—Capt. and Mrs. I. M. Dunn, of Garrard, were guests of Mr. and Mrs. J. W. Baughman. Col. W. G. Welch declined a handsome fee offered by Jim Howard's friend to defend him. We failed to state that Mrs. Pattie Hays is night operator in the telephone exchange.

Scarcity of Hemp.

It is almost impossible to get hands to break hemp, notwithstanding the fact that farmers are paying \$1 per hundred. The negroes, as a rule, will not work as long as they can live otherwise, and put off doing anything until the meat and bread supply is completely exhausted. Now why is it that a howl goes up when machinery is secured to do their work?

The Confederate Home.

The Confederate Home at Pewee Valley, now has seventy-eight inmates. The youngest of these is Mr. E. D. Shengham who is fifty-four years old, while the oldest is Captain Robert B. Terrill, who is now eighty-six years old. Garrard county has as yet no representatives in the Home.

W. C. T. U.

The Woman's Christian Temperance Union will give a reception, Saturday from 2:30 to 4:30 P. M. in honor of the ministers, county judge, the bar, the editor and the honorary members. The temperance wave has indeed started in and around Lancaster. Saturday afternoon the Paint Lick ladies held their first meeting at the residence of the president, Mrs. Ernest Woods. It is a strong organization and composed of such noble women, will wage a war against Satan. Sunday afternoon the children of Lancaster were organized into a Loyal Legion. That night a mass meeting was held at the Methodist church where rousing talks were made by the ministers of the various churches.

For Law and Order.

All the congregations were dismissed Sunday night to attend the special services held at the Methodist church. The meeting was held in response to a call from the ministers of Louisville, who want the christian people of the state to work and pray for an enforcement of law, and the suppression of crime in Kentucky. Addresses were made by all the ministers. It sounds bad, but there's no denying that fact, that criminals are seldom punished in this state. A man may take the life of another, and its not once in fifty times that he is punished. There is the ever-ready witness who, for a small sum, will swear anything slyer lawyers will tell him, there's the professional juror who stands about the court room to be called on the case, (ever hear that in Garrard?) there's some lawyers who will not stop at anything to win their point. This can be stopped, and the only way is for the people to rise up and say it shall be stopped. We have seen cases tried in a court house not more than ten thousand miles from this office, on which men served as jurors who it was openly boasted were hired to stand around so that the sheriff was compelled to call them as "bystanders." What is needed is, as stated elsewhere in this issue, for the people to hang a few professional jurors and a few more professional witnesses. Then, and not until then, will the law be enforced in Kentucky.

Here's a Suggestion.

There's not a man, woman or child in Lancaster who does not believe that the Garrard Hotel and Opera House should be rebuilt. This being the case, The Record will make this suggestion: Why cannot a new company be formed, and the necessary funds be raised by the selling of bonds? The old hotel company is not only willing but anxious to do all in its power to help with the move, and we believe they would take bonds to the extent of the lot and material on the ground, to say the least. In addition, we believe nearly every member would go in again as much as any one else. That such an investment would pay, there's no disputing, and that such buildings are needed, all are painfully aware. If such a company could be organized, the town and county could well afford to exempt taxation for a few years, as it is a necessity that is needed by everybody. Even if it were not so great a necessity, the people should have enough town and county pride to lend all assistance in getting it. We know of five or six gentlemen who are not only willing, but anxious to take hold of the matter and if others will show some town and county pride by coming to the front, the thing can be put on foot and all arrangements made by early spring. The inclination to invest money at home is growing, and all wild-cat tomfoolery does not meet with the open arms here that it once did. This spirit to build up home industries is on the increase, and, as money can be had most any where, it seems to us that now is the time to get busy. We have talked to several gentlemen this week, and the spirit of home enterprise was gratifying, indeed. The old company will not rebuild, as has been stated in The Record, but we believe, as stated above, that a new one can be formed who will put up even handsomer buildings than the ones destroyed. The town and county officials should have enough sand in their craw to lend every possible help, too, as the people want this sadly needed improvement.

Lancaster Won.

The boys are having much fun "kidding" Uncle Dave Ross and a few other wise guys who prevailed upon them to remain away from Lexington and not tackle the Danville bowling team for the play-off of the tie for championship. "Unc" was particularly earnest in pleading with them not to make as he said, "darned phools" of them selves, and now the laugh is on "Unc," and the boys are carrying him high. Speaking of the game, the Lexington Democrat says—In the afternoon Lancaster defeated Danville in the first, third and fifth games and won the match. There is a great deal of feeling between Lancaster and Danville, not only in bowling but in every other way and the victory yesterday did Lancaster more good than the winning of the world's championship would have done. The good work of McMillan and Siler in the fourth game deserves special mention. Scott and Carr refereed the games. The scores follow:

Entered at the Post Office in Lancaster, Ky., as Second-Class Mail Matter.

Lancaster, Ky. Feb. 13, 1903.

Now comes the report that the great Salt Lake is doomed, and, within a few years will be no more. As the story is fishy, it should be salted down.

The Harrodsburg Democrat, under the able charge of Lew B. Brown, grows better every day. Since he has taken charge, the paper is as sprightly as a young widow.

West Virginia legislature is trying to pass a law prohibiting kissing in public. Well, let 'em abolish it. A kiss before a crowd is about on a par with cold soup.

Some one asked why the groundhog went back into his hole, and the Louisville Times said it was because he was afraid Roosevelt would fill his place with a coon.

A Kansas firm has just completed a chicken fattening house, with a capacity of 5,000 chickens. We presume all future Methodist camp meetings will be held in that neighborhood.

Lieut. Peary will make another effort to find the North Pole. If the gallant "Left-tenant" will promise to take it several thousand miles further North, he will readily receive all the financial assistance he wants.

A bill to do away with the death penalty has been introduced in the Connecticut legislature. The outside world doubtless thinks such a law was passed in Kentucky many years ago.

It is said the race question will come up for discussion more in Congress. As no elections are at hand it probably will. You never hear Rastus discussed by either party when there's an election approaching.

A Denver Judge has ruled that a woman is not to be held to a strict accountability for what she says about her age. What's the use holding "to a strict accountability?" she's going to do as she pleases any way.

Another St. Louis city official has been suspended from office charged with corruption, and it looks as though the "fad" is spreading. It's to be hoped that it will spread, but there's no such good luck, as officials of other cities will promptly quarantine against it.

The profits of John W. Gates in the sale of his L. and N. stock to Morgan & Co., last fall were \$7,548,000. This ought to keep the wolf away from cousin John's door, but we will wager a stack of blue chips that he would grow as poor as a church mouse if some friend should ask a little help.

labor. Steps should be taken to prevent the wholesale destruction of plow-hand material.

Those editors who have poked fun at the Press Association should now saunter to the extreme rear and be seated. The recent meeting of the body was of more benefit to the craft than anything that has been done in the last fifteen years, even surpassing "the good old days when So and So was present," as some of our older brethren put it. The newspaper men of Kentucky are the only ones who strive to push the state's interests, and, we may safely add, the only body of men who are not bound together for selfish purposes, but we should get together, gentlemen, to protect ourselves, to pull together for that which is justly due us, and the only way it can be done is by keeping the Kentucky Press Association on a firm basis. The Louisville meeting was attended by strictly bona fide newspaper men, and was of inestimable benefit to all present.

The complaint of "courts not doing their duty" is heard more today than ever before. People censure the courts for turning criminals loose, when the fault is really not with the judges or juries. From our observation, the fault lies elsewhere. Everybody knows there are some people in every community who are always witnesses, and frequently the star witnesses in every criminal case tried. When a criminal fears the halter its an easy matter to buy up these professional witnesses to swear anything needed to clear the defendant. When the testimony is before the jury, of course the case must be decided thereby. The thing to strike at is the professional witness, not the judges and juries. We have seen cases tried where the most important facts were proven by witnesses who could be bought not only to swear anything, but almost to do anything or commit any crime. When the law and order leagues want to bring criminals to justice, let them see that the professional witness is done away with, and some hangings will result.

We have found, as have all other offices that have adopted the idea, that lady type setters are a success in every respect. In many ways they are far better than men. There is a young lady in this office who began work the first of the year, who can now put up more than a galley of clean proof by three o'clock. She knows more now than the average boy would know (not what he thinks he knows, please) in a year's time. There's no cigarettes, no swearing, no drinking, no stealing time, no yelling out the windows, nor any of that smart-Alex know-it-all air which nine out of every ten boys assume to. We are not blessed with any of this world's goods, but we would not undertake to learn another ragged-breeches boy the trade if we were assured the sum of ten thousand dollars in the best good money Uncle Sam has. We have a young man now who is an exception to the rule, who appreciates what he is shown who works for our interest and who will make a good printer, but carry another cub comes into The Record office while the present editor is in charge. This is not flattering young America, we are aware, but excuse us, please, on learning boys the trade. There's not one in a thousand who appreciate what you do for them.

Tendency of the Times.

The tendency of medical science is toward preventive measures. The best thought of the world is being given to the subject. It is easier and better to prevent than to cure. It has been fully demonstrated that pneumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by the use of Chamberlain's Cough Remedy. Pneumonia always results from a cold or from an attack of influenza (grip), and it has been observed that this remedy counteracts any tendency of these diseases toward pneumonia. This has been fully proven in many thousands of cases in which this remedy has been used during the great prevalence of colds and grip in recent years, and can be relied upon with implicit confidence. Pneumonia often results from a slight cold when no danger is apprehended until it is suddenly discovered that there is fever and difficulty in breathing and pains in the chest, then it is announced that the patient has pneumonia. Be on the safe side and take Chamberlain's Cough Remedy as soon as the cold is contracted. It always cures. For sale by all druggists.

It surely saved my life." This great cure is guaranteed for all throat and lung diseases by E. F. McRoberts Druggist. Price 50c & \$1.00 Trial bottle free.

When some women realize that they are better than men they spend a lot of time in regretting the fact.

"I was troubled for several years with chronic indigestion and nervous debility," writes E. J. Green of Lancaster, N. H. "No remedy helped me until I began using Electric Bitters, which did me more good than all the medicines I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for female troubles; that they are a grand tonic and invigorator for weak, run down women. No other medicine can take its place in our family." Try them. H. M. BALLOU

As Joe Lancaster.

Editor Joe Waters, of the Stanford Democrat, came over the other day, took a look about town, went home and printed the following:

Hundreds of men stood around in the cold mud all day just because they had heard it was county court. * * * Business was unusually dull. However there seemed to be plenty of geese for sale, Mr. Northcutt having about 500 close to the stock pens. His poultry business is a great source of revenue to the people of Garrard, as he spends thousands with them annually. The Bastin Telephone Co. is popular with Garrard people, for there was a throng of people pouring into the Exchange all day Monday paying monthly dues and bragging on its excellent service. The worst trouble fellow we saw in Lancaster Monday was Lennie Miller, of the Lancaster Record. He brings his dinner from home, a mile or so in the country every day and Monday the mischievous mite ate all his peach pie, hence his tears. He is the same boneless boy that was mashed flat as a pancake by a big imposing stone falling on him in that office last week. He is a bright boy and because he is so good, he is a general favorite. Miss Carrie Hatcher is learning the printing art in the Record office and is progressing rapidly. Capt. White, the old war horse has not been well for a few days, but he will be able to set type a hundred years more. The Mason Hotel as usual, was crowded Monday, for people from everywhere recognize it as one of the best in the State. Mr. and Mrs. U. D. Simpson have been in charge for eight years. As a landlord he is a model, while Mrs. Simpson knows everything worth knowing in connection with the hotel business. * * *

The question of "For or against liquor license?" has been raised in Lancaster again after a Rip Van Winkle sleep. There is no rest for the weary. Troubles arise every day. Very truly has it been declared that nobody can sail into heaven on flower beds of ease, while others fight to win the prize and swim through bloody seas. There is no town in the world where the prohibitory law can not be enforced. Too many moral cowards and weak-kneed Christians create and sustain Blind Tigers and bootlegged bar-rooms. It is never of any use to vote prohibition and go to sleep like the people of Stanford, Lancaster and Danville have done. Shame, dirty, infamous, cowardly shame! There are a great many more cowards than Christians in each and every town in the world.

MT. HEBRON.

Mrs. Adams is very ill at this writing.

Mr. James Stone has gone to Missouri, on a visit.

Mr. Joe Duncan sold a pair of mules to Sale Hurt for \$200.

Mrs. Rosa Ison, of Jessamine, visited Mrs. John Onstott.

James McWilliams bought of Mr. R. Cheatham his farm near this place for \$600.

WALLACETON.

Miss Etta Rutherford, who is attending school at Berea, attended church here Sunday.

E. B. Wallace, of Berea, attended church here Sunday and was the guest of James W. Wallace and family.

"Grandma" Cade stumbled and fell Saturday, bruising her face but fortunately received no serious injuries.

Mr. Reuben Baker has moved from Mt. Vernon to our town, occupying the property formerly occupied by E. B. Wallace.

Wind and rain did quite a good deal of damage in our vicinity last week, fodder, hay-stacks, fencing &c., being badly drenched.

The work on the new church has been greatly retarded by various causes, but the house is now ready for receiving the paint.

Although each of our neighboring local papers receives a fair patronage from our people here, yet the Berea Citizen enjoys the distinction of having the largest patronage.

Miss Mary Baker, who is Matron of Gilbert Cottage, the girls' new dormitory at Berea, visited home folk here, Saturday and Sunday. She was accompanied by Mr. Chester Treadway and his cousins, Misses Nettie and Alice Treadway.

The wife of David Bowlin died on the 6th inst., after almost a year's suffering from tuberculosis, and was buried in the cemetery here Saturday. She leaves a young husband and one child, who have the sympathy of the entire community in their sad bereavement.

In the absence of Rev. Sturgell, who is engaged in a meeting at Williamsburg, his appointment here Sunday, was filled by Rev. Pasco, of Berea, who delivered an exceedingly practical discourse from the text: "To be carnally minded is death; but to be spiritually minded is life and peace."
